

Camp Ballibay 2021

Parent Handbook

What's changing due to Covid-19?

Our goal is to have as close as possible to “normal camp,” but obviously there will need to be some changes to reduce as much as possible the risk of Covid-19 transmission. As we’ve discussed with most families, we are not attempting to *eliminate* risk, we are *mitigating* risk to create a presumptively Covid-safe situation while preserving as much as possible the joys of camp and the much-needed social interaction and feeling of freedom that you want for your kids, and that they need, after this maddening year. We have been in discussions with a number of camp parents who are doctors, public health professionals, and researchers on the front lines of Covid, including one of the Nation’s major Covid researchers, who is also a camp dad. These folks have generously been instrumental in forming our Covid plan and support it enthusiastically.

Our plan is as follows:

1. **The test before camp:** We require a PCR Covid test taken as close as possible to 48 hours before the opening day of your camper’s session. * Campers must show a negative result on this test to arrive at camp. If you live within the continental US, our Covid testing partner, Grapefruit Health, will send a test to your home; you can provide insurance information or opt to pay for the test. *See the Grapefruit Health instruction page in this packet for details.*
2. **The critical period:** It is essential that the highest level of Covid safety be insured in the 48 hours between your camper’s test and their arrival at camp. This is the window of time in which the most risk is introduced. For campers flying to camp, it is essential that the kids take every precaution: double mask, social distance, and limit potential exposure in every way possible. For those driving to camp, see below for our unfortunately very strict arrival protocols. For those taking camp bus/van from NYC, also please see below.
3. **The camp’s test:** We will administer a PCR Covid test as close as possible to 48 hours after your camper’s arrival. Within 24 hours after the test, we will receive results.
4. **Until the camp’s test results come back:** We will double-mask and social-distance in cabin pods. This will be challenging for the kids: They will not be able to interact outside of their cabin pod for the first three days of camp. During this time they will have a somewhat modified version of our “orientation” – a tour of the camp, informal auditions, and a chance to learn about all of the camp programs and meet all of the staff; all while remaining socially distanced. Orientation is not what *real* Ballibay is like: once we un-mask in a Covid-negative campus-wide quarantine bubble, kids will be able to choose their own daily schedule, participate fully in any and all activities, and will be in rehearsals, classes, meetings, and moving about the campus freely. But: *orientation is different.* Usually orientation lasts only two days, and even then it is sometimes tough for the kids: they expected a totally individualized program, and yet they are travelling as a cabin group like in a traditional camp. It will be even more challenging this summer extended to three days and with double masks and social distancing in effect. Please spend some time explaining to your camper that the first few days will be weird and not what they expected (and please feel free to call us for guidance on how to best explain this: 570-746-3223). Camp will open up after this initial period: each child will be able to choose their own program and explore widely, or focus narrowly, as they wish, with tremendous support and guidance from our caring staff. *Just not for the first three days.* This is a moment of teaching patience, and we are so grateful for your support.
5. **If the camp’s test reveals a positive:** If your child tests positive, we will regretfully ask you to come and pick them up. Until pick-up, we will keep your camper in caring isolation, incorporating as much fun and interaction as is safe and possible. Isolation does not mean staying inside: we have a huge campus and can keep your child isolated from other campers and staff while allowing them freedom to enjoy nature. We will keep that camper’s cabin in podded quarantine for another two days, and then re-test the cabin group.
6. **Wearable Thermometers:** All campers and staff will wear color-coded thermometer “dots” each day of their stay. This will provide a visual cue to elevated temperatures. Of course, it’s summer, so there will be short-term peaks in temperature for all campers and staff; but an elevated temp over several hours will be considered a “risk,” see the next item.
7. **Risk Testing:** If we feel there is a risk of a Covid infection, due to an elevated temperature or another factor, we will apply both a PCR test *and* a Rapid Test to rule out Covid. We will keep you informed at every step.
8. **Quarantine at home:** *If possible,* we ask that you quarantine at home for one week before your child’s arrival at camp. We know this is not possible for all families: there are kids flying in from Europe and Asia, there are kids coming directly from other camps, &c... But: *if it is possible for you to do this, please do.* Each and every moment that we can spend reducing the risk of introducing Covid to camp is a critical moment.

*If your camper is arriving on Saturday, the day before opening day, this does not change the timing of the PCR test to be taken before camp: the test must be taken 48 hours before a Sunday arrival, or 24 hours before a Saturday arrival. Thus: if you plan a Saturday arrival, you will need to ensure that you will receive your test results within 24 hours so that you can arrive at camp with a negative result.

9. **About Cabin Placement:** In order to implement the cabin podding described above, we need to separate 2-week and 4-week campers into different cabins during the first 4 weeks of camp. This will affect the cabins in several ways: a) There will be wider age gaps than usual between the oldest and youngest camper in a cabin. b) Cabin requests made between a 2-week and a 4-week camper cannot be honored. c) If your camper extends their stay from 2 weeks to 4 weeks, they will need to change cabins on the session changeover weekend. This is unfortunate but unavoidable. See “cabin requests and assignments” below for more information on cabin placement.

About double-masking: We need for every family to provide several cloth “top masks” for their camper(s). This is the “fun” mask: it can have decoration, text, whatever floats your campers’ boats. We will provide standard paper “under masks” to be worn under this cloth mask during the first three days of each session. Please reinforce that your camper will need to hand-wash their cloth mask daily for the first three days of camp. Their counselors will ask this of them as well, and for younger kids will be glad to help them.

Medications • *Required*

Due to changes in PA state law, *all medications* must arrive at camp in pharmacy-prepared blister packs or pill packs. We have partnered with **Campers’ Pharmacy** who will work with families and physicians prior to the start of your camper’s session to package and ship all of your camper’s medications directly to camp.

Campers’ Pharmacy will fill all medications listed below with the required Physicians Prescription (RX) and/or Physician Authorization Form (OTC)

- Prescription medication - pill, liquid, spray, drop, or cream (daily and as needed).
- Over-the-Counter (OTC) medication - pill, liquid, spray, drop, or cream (daily and as needed).
- Rescue Inhalers (one rescue inhaler must be filled with Campers Pharmacy and will be kept in our infirmary during the duration of your camper’s stay.)
- Prescription and OTC Vitamins, Supplements, Lactaid, Melatonin, etc.

The only medications that do not need to be filled by Campers’ Pharmacy are:

- Growth hormones
- Epi-Pens

At camp we keep a stock of most over-the-counter items taken as needed such as Tylenol, Advil, Benadryl, Tums, etc. so there is no need to have Campers’ Pharmacy dispense these typical items. If there is an OTC item you would like us to keep on hand for your child, please let us know.

See the Campers’ Pharmacy instruction page in this packet for details and be sure to register with Campers’ Pharmacy at least 30 days before the start of your camper’s session.

Hearing Protection • *Required*

If your camper will be participating in the rock program or might wish to sing or play an instrument in a rock band, we ask that you pack high quality hearing protection for your camper. Each rock studio is equipped with a Sound Pressure Level (SPL) meter, and when the volume of a rehearsal passes a certain threshold, all participants must wear hearing protection if they wish to remain at the rehearsal. Please reinforce the importance of hearing protection with your camper.

Something like this is recommended: <https://ballibay.family/EarPeace>

New Cabin Naming • Gender Expressions • Camper Photos

Out of respect for our nonbinary campers and staff, we’ve re-named our cabin areas. What has historically been known as the “girls’ area” is now referred to as the “Up the Hill” cabin area, and cabins are numbered U1, U2, U3, etc... instead of G1, G2, G3. Similarly, the “Down the Hill” cabin area is the new name for the living area where most kids and staff use he/him pronouns, and the cabins are now D1, D2, D3, etc...

Ballibay has always been a gender-diverse community, and we’ve very pleased that this year our on-line registration partner Ultracamp has implemented a gender expression menu that better accommodates this diversity.

Please log in to your Ultracamp account and check that your campers’ gender expression, pronouns, and preferred name reflect your campers’ current wishes: <http://login.ballibaycamps.com/>

Also please make sure your campers’ photos are current, and clearly show their faces.

Discord Server, Facebook Group

While at camp the kids will be disconnected from the Internet and Social Media, but our campers have created a Discord server, so if your kids are on Discord and they want to meet some new and returning campers, make some friends, and get some questions answered kid-to-kid, they should feel free to join: <https://ballibay.family/join-discord>

Also, for parents (and campers, too, if they are on Facebook) we have a Ballibay Families and Alumni Facebook group that you are all very welcome to join. Here you can meet current camp families, and camper and staff alumni from every generation of camp going back to the 1960s. It's a pretty neat space: <http://facebook.com/groups/ballibay>

Meet the Directors on Zoom

We'll miss our in-person "meet the directors" sessions on opening days this summer, but, due to our Covid protocol, they will not be possible. As an alternative, we will hold two or three Zoom meetings where you can meet John, Kristin, and Sarah.

If you'd like to join one of these sessions, please participate in this Doodle poll and indicate *all* of the days and times that would work for you. Based on this, we'll schedule the sessions and let you know: <https://ballibay.family/meet-directors-21>

Cabin Requests & Assignments

Cabin requests can be submitted online by logging into your account and navigating to the forms section or going directly to <http://cabinrequest.BallibayCamps.com>

Cabin requests must be mutual: If one family fills out a request, the *requested* family must fill out the portion of their form that accepts the request.

Cabins are assigned by age, so cabin requests that would move a camper out of his or her age-appropriate cabin typically cannot not be honored. If a request from two different age groups can be honored, the older camper will always be moved to the lower-aged cabin; we never place younger campers in older cabins based on requests.

Many factors go in to assigning campers to cabins, and we cannot guarantee that all requests will be honored.

While cabin friendships are certainly important, Ballibay does not group any activities by age, and so close friendships form based on *affinities*, and thus across larger age differences than one might ordinarily see. Unlike most camps, at Ballibay there are no activities done as a cabin group after the initial "orientation" camp tour, and relatively little time in the day is spent in the cabin. Every camper at Ballibay has a unique schedule based on interests, not age or grade. It's a good understanding for kids to come to camp with, because we are different from most camps in this regard. Even though cabin placement is much less important than at many other camps, we typically can honor almost all cabin requests, but this is largely because all cabin requests are two-person requests. We treat what is on the forms as the "last word," so please be sure that both families involved in a request complete the *cabin request form*.

Mobile Phones & Other Devices

At Ballibay we emphasize face-to-face communication, and thus are a largely unplugged environment. There is no Wi-Fi for campers, and this summer we are emphasizing letter- and postcard-writing as the main means of communication. See **Camper Communication** below.

We do not allow mobile phones or any type of tablet or device with cellular data capability. Phones are not allowed even if their SIM cards have been removed. Please see our terms and conditions, below.

Our young artists need their music, and enjoy having digital cameras, e-books, and audiobooks, so we continue to allow iPods and iPod touch devices, Kindle devices and iPads with no cellular capability, as well as any .mp3 player that does not have cellular capability. Please contact the office with questions about this policy.

Visiting & Evening Performances

Most unfortunately, we will not be able to allow any visits to camp this summer due to our Covid protocols. We're so very sorry about this. Camper performances will be uploaded to Vimeo a few days after they go up.

Transportation

We offer several ways for your camper to get to Camp. Many parents drop their children off at camp, as detailed in the section on Arrivals and Departures, below.

Flights

For those flying to camp, we offer pickup and drop off from three airports:

Wilkes-Barre/Scranton International Airport (AVP) - \$75.

Newark International Airport (EWR) - \$150.

John F. Kennedy International Airport (JFK) - \$250.

Campers' flights arrive on a Saturday, one day before the start date of their camp session.

Campers' flights depart on a Saturday, the stated closing day of their camp stay.

Bus/Van to Camp

We offer transportation to camp from New York City. Our camp "bus" may be a full-sized bus, a van, or a car, depending on the number of campers being transported. We leave for camp every Sunday that is an opening day of a camp session at 9:30 AM from the NE corner of 62nd St. & Amsterdam Ave, behind Lincoln Center. There will be room for all luggage. Cost: \$75.

On the bus/van, campers must maintain social distancing and be double-masked (a paper under-mask with a cloth over-mask). Alternatively, a multi-layer mask with an integrated filter is acceptable. There are many cute options, such as this one:

<https://ballibay.family/etsy-mask>

Bus/Van from Camp

We return campers to the same location on Saturday afternoon on the closing day of each camp session; typically at 1:00 PM, but check the transportation email the week of your camper's departure to confirm pick up time. Cost: \$75.

Transportation Form

The Transportation Form can be accessed at <http://transportation.Ballibay.com> and should be filled out by June 1. All parents will receive a weekly update e-mail that will include the transportation information for the *upcoming week*, not the entire summer. Please be sure to check the e-mail in the week prior to your camper's arrival and departure. If we have no transportation information, we assume that your child is being driven to and picked up from camp.

Arrival by Car

Our arrival protocol will be very strict. We will schedule short arrival windows for each family, and it is essential that everyone be on time for their arrival window. One of your camper's cabin counselors will greet you at your car, and you'll have a few minutes to speak with them. We ask that families do not leave their vehicles. It is of course very disappointing that we cannot offer you a tour of the camp, a chance to help your camper move in, and our usual "meet the directors and deans" sessions, but we hope you understand that this is only due to our Covid-19 precautions.

It is essential that you plan to arrive in the area early and wait so that you can hit your arrival window as precisely as possible.

There is a parking area and a wonderful view at the *Marie Antoinette Overlook*, so named because it overlooks the *French Azilum Historic Site*, which was to be the French royal family's escape settlement had they made it out of country in the 1790s. There is also a bathroom here, in the colorful local bar the "M.A." which opens at 11:00 AM: <https://ballibay.family/lookout>

Another beautiful stopping site is the *Wyalusing Rocks*, which also overlooks the Susquehanna river, and is an important site in Native American history, marking the intersection of the North-South Warriors' Path the East-West Wyalusing Path: <https://ballibay.family/rocks>

Saturday Arrivals by Car

We will be offering a few Saturday arrival times so that we can spread out arrivals as much as possible and facilitate early arrivals for some families for whom Saturday arrival works better. There is no additional fee for arriving the day early. *Arriving on Saturday does not change the timing of the PCR test to be taken before camp: the test must be taken 48 hours before a Sunday arrival, or 24 hours before a Saturday arrival.* Thus: if you plan a Saturday arrival, you will need to ensure that you will receive your test results within 24 hours so that you can arrive at camp with a negative result. Please also note that a Saturday arrival extends the number of days your camper will need to mask and social-distance at camp. There will be a performance for campers on Saturday night at 8:40 (the dress rehearsal for the Staff Cabaret), otherwise no activities are scheduled on Saturday or Sunday morning and afternoon.

Scheduling your arrival time

We will send an invitation to a Doodle poll a few weeks before the opening day of camp:

- On the poll, please mark *all* the Sunday arrival times you could potentially arrive at camp.
- If you select *any* Saturday arrival times, we'll assume that you prefer a Saturday arrival and we'll try to accommodate that.
- If you would like a Saturday arrival, please also select some Sunday arrival times that are possible for you, as we may not be able to accommodate all Saturday arrival requests.
- If it is absolutely essential that you arrive on Saturday, please give us a call so that we understand your situation.

Based on the poll results, we will assign every family an arrival window.

Departure by Car

Pick-up will be similarly strict and scheduled. We will greet you on the road, and have your camper and their luggage prepared. We again ask that families do not leave their vehicles.

Please drive slowly on our narrow country roads!

Sending Packages to Camp

Your camper will inevitably forget something at home, or ask for something they didn't know they needed once they arrive. Packages are welcome, but ***please do not send food***. We are in a rural setting, and food in the cabins attracts wild animals!

Mail and packages should be sent to:

Your Camper's Name, Camp Ballibay, 1660 Ballibay Road, Wyalusing, PA 18853

Camper Communication

Snail Mail

This has been a year of too many screens and too much electronically mediated communication. So we're *not* going to have our usual email computers set out for the campers this summer. While email will still be available when necessary, we're going to ask everyone to bring stationery, pens, and stamps, and go "old-timey camp" for the bulk of their communication. So, make sure your camper has an address book and gathers friends' addresses before camp, and you might want to create address stickers with your home address to encourage regular communication. We will provide postcards, and campers will be encouraged to make their own postcards in the art barn. Also, the playbills from all performances can be brought to the office and we will mail them as letters at no cost, and provide the kids with replacement playbills for their memorabilia if they wish.

We also ask that you *communicate with your camper primarily by letter or postcard*. Campers shall receive mail each day after lunch.

Your camper's address is: **Your Camper's Name, Camp Ballibay, 1660 Ballibay Road, Wyalusing, PA 18853**

Email

Email will be available after the masked and social-distanced period of camp has ended and when a camper needs to be in touch more quickly than letter or postcard, for instance to ask you to order something and have it shipped to camp.

Similarly, if you need to contact your camper more quickly than letter or postcard, you can send an email to the office and we'll print it and give it to your camper with the postal mail. We ask that you do this only when you feel it is necessary, please. Send emails to Marnie at: office@ballibayCamps.com

Phone Calls

We discourage phone calls with your camper. They tend to exacerbate and prolong homesickness; and sometimes even seem to cause it. If a situation arises where we think it would be beneficial for your child to speak to you, we'll gladly arrange a call. Likewise, if you feel strongly that you need to speak with your child, please call us to discuss arranging a call. But please keep in mind that a homesick child will usually not be made to feel better by hearing your voice; we've found over many years that it will almost always have the opposite effect.

In the event that you need to convey bad news (family emergency, &c...) please call us and let us know. We need to know if your child is going to be struggling with bad news so that we can best help them through a potentially difficult time.

You can call and email the camp directors at any time, and as often as you need to, for information regarding your child's activities, adjustment, well-being, and any other aspect of camp life you'd like to discuss! 570-746-3223 or 570-746-3179.

Pet Policy

Pets are not allowed on campus under any circumstances, even if only for a few minutes. There are horses, cats, and farm animals at camp that may not react well to a new animal -- even your family dog -- being introduced into the environment. Likewise, there may be campers or adults here who may not react well to your pet or may be allergic. Please leave your pets at home.

Head Lice

As in any close-knit community, head lice is always a concern. We encourage you to have your child checked for head lice within two weeks before their arrival at camp. Even if no sign of lice is found, we encourage you to prophylactically treat your child with over-the-counter anti-lice shampoo before their arrival.

Even with the preventive measures in place, we will be checking each child and staff member for lice upon their arrival at camp and throughout their stay as the situation warrants. If a camper is found to have lice upon arrival, we will treat your child immediately.

Medical Policy

The health and welfare of the campers is always our first priority. The camp directors to act *in loco parentis* for the purposes of medical treatment during your child's stay.

We will only seek non-routine medical treatment (anything more than ibuprofen, Benadryl, a band aid, or similar minor treatment) for your child after consultation with you unless we consider your child's health at serious risk, in which case we will act in the interest of the child's health and safety while attempting to contact you as quickly as possible.

Cancellation & Refunds

Please see the camps **Terms and Conditions**, below; but, in short:

In the past, the deposit was forfeit upon cancellation for any reason, but we've changed those terms this year, as we felt they were not fair to families under the trying circumstances we've all been dealing with. While the deposit will not be refunded if you need to cancel, it will remain as a credit in your account that can be used towards any future session or summer, a sibling, or it can transferred to another family. To transfer to another family, the family must have an account with us on Ultracamp, but they do not need to be already registered. To initiate the transfer, simply email us.

Terms and Conditions

These are our 2021 updated Terms and Conditions. If you were registered for summer 2020 and had your registration automatically transferred to summer 2021, you may have not seen this update; please review it carefully for changes to our terms. If you have questions or feel you may disagree with any of changes to the terms, please contact us. If you registered for summer 2021, these are the same terms that you agreed to during the registration process:

Ballibay Terms and Conditions 2021

- **REGISTRATION AND TERMS:** Pay the appropriate deposit for each camper enrolled. Due to the seasonal nature of camping there are no refunds for early departure, late arrival, dismissal, or failure to attend. Campers arriving early or staying over session dates will be charged an extra day rate. All fees must be paid by June 15 unless prior arrangements have been made with the office. Tuition includes: Laundry services, room, board, snacks, and all regular activities.

The deposit is a commitment that a child will attend camp. If a) circumstances prevent a child from attending a planned session, or b) if a session becomes unavailable, the deposit can i) be transferred to any other available session, or ii) transferred to a session in a future summer. Deposits can be transferred to siblings and between families. The deposit is refundable if the camper will be 17 years old or older on the opening day of the next available or planned camp session.

A camper who is a) required to leave camp due to infectious disease, or b) is unable to attend because the family cannot provide a negative test result for infectious disease that has been required by the camp, can have their deposit i) transferred to a future session of their choice, ii) transferred to a sibling, or iii) transferred to another family. The family will also receive a pro-rated refund of the balance of camp tuition not including the deposit. If the camper would be 17 years old or older on the opening day of the next available or planned camp session, the family will receive a pro-rated refund of the entire tuition including deposit.

(Required) I agree; I understand the deposit policy and that all fees must be paid by June 15 regardless of camp session.

- Permission is hereby given to use photos, video and audio recordings, statements, and performances of campers for camp promotional purposes.

Permission is also given for the camp to search the camper's possessions, cabin and activity areas for any items that are deemed inappropriate or unacceptable by the camp.

(Required) I agree

- CABIN PLACEMENT is at the discretion of the camp management. We have many years of experience in grouping children in a residential situation, balancing new and returning campers in a cabin, and the many other factors which go into cabin placement. We ask that families support our cabin placement decisions. There is a cabin request form as part of the registration process. One camper may request one other camper through this process. The request is complete when a requested camper confirms the request on his or her own form. Daisy-chain requests are permissible: Camper A requests camper B; Camper B confirms A's request and requests Camper C, &c...

(Required) I agree to allow the camp to determine my child's cabin placement; and I understand that cabin requests will be honored when possible but are not guaranteed. I understand that cabin requests that are not completed by both campers may not be honored.

- The Ballibay Camps will not permit campers to smoke or indulge in liquor or have in their possession any controlled substance which violates the laws of the Commonwealth of Pennsylvania. Any such camper will be dismissed from camp without refund of any part of the fee. Campers whose behavior is unacceptable or is detrimental to camp program may be dismissed after consultation with parents, without refund.

(Required) I agree

- I appoint Camp Ballibay and its directors to act in loco parentis (in place of a parent) on behalf of my child, in any way that I/we would act if I/we were personally present, with respect to any injury, illness, or medical emergency that occurs while my child is attending Camp Ballibay.

This status of in loco parentis pertaining to medical matters, includes but is not limited to: (i) providing any and all consents and authorizations to any physicians, dentist, hospital, health care providers or other persons or institutions pertaining to any emergency medications, medical or dental treatments, diagnostic or surgical procedures, or any other emergency actions as deemed necessary or appropriate in the best interests of my child; (ii) transporting my child via automobile, ambulance, or other emergency transport vehicle to the medical facility deemed to be in the best interest of my child. (iii) signing any documentation or authorizations so that Private Health Information (PHI) pursuant to the Health Insurance Portability and Accountability Act of 1996 (HIPPA) can be released and exchanged in the best interest of my child.

I understand that, while every effort will be made to contact me as the parent/guardian, care must not be withheld in the event that I am unavailable in person or by phone. Care shall be rendered as necessary for the health and safety of my child.

I understand that I remain responsible for the financial costs incurred with emergency transport, treatment at any health care facility, and any treatments required during my child's stay at camp or after my child leaves camp.

In loco parentis status will permit a counselor or agent appointed by the camp director accompanying my child to any health care facility to be present (in the examination room) throughout the treatment of my child even after phone contact has been established with me.

The camp screens all campers for head lice upon arrival to camp, will make a reasonable attempt to detect any subsequent cases of head lice, and will treat on campus any cases of head lice that arise during camp. Despite best efforts, it is not impossible for campers go home with head lice. The camp is not responsible for the cost of head lice treatment after camp, as inexpensive home treatments are completely effective.

(Required) I have read the above carefully and I agree to appoint Camp Ballibay and its directors to act in loco parentis. I agree to give the camp office my complete itinerary if I will be traveling during the camp session.

- Unless otherwise notified, Camp Ballibay considers the parent(s) named in this registration process be the only person(s) outside of the camp with the authority to take the above named camper(s) off campus, or to give permission for others to take them off campus. All permissions to go off campus with anyone other than signer(s) of this form must be entered into your online account, or received in the camp office, in writing, more than 24 hours before a camper's departure.

(Required) I agree

- Contact with the camp office and your campers is encouraged, but only permitted through the camp's approved methods, which may change from summer to summer and will be announced by the camp in May before the camp session begins. US Mail will always be available to campers.

Campers do not have access to phones. Should parents and the camp administration agree that phone contact is necessary between parent and child, phone calls will be arranged on a case-by-case basis.

Parents are encouraged to contact the camp office at any time, via any medium, and as often as necessary for updates on their children.

(Required) I understand that my child will have access only to the camp's approved methods of communication; I understand that US Mail will always be available; I agree to coordinate with the camp office in case there is a need for phone communication.

- Mobile phones are strictly disallowed at Ballibay. This includes the use of iPhones, Android or Blackberry or other cellular devices, even those whose SIM cards have been removed, or are otherwise not functional.

We explicitly do not allow the use of disabled phones as music players.

Campers are allowed to arrive at camp with phones, but are required to leave them in the camp office for the duration of their stay at camp. The camp reserves the right to dismiss campers without refund in the case of mobile phone use or possession.

Other electronic devices are acceptable as long as they do not have cellular/mobile capability.

(Required)

I understand that my child must turn in their mobile phone upon arrival at camp; I understand that non-functional phones and phones with SIM cards removed are not allowed; I understand that using disabled phones as music players is specifically disallowed; I agree to inform my child and other family members of this policy so that there is no confusion on this issue.

- In registering, the family a) recognizes that there is risk of infectious disease in any large residential gathering, b) accepts the camp's precautions and policies to prevent the spread of infectious disease are reasonable and practical, and c) agrees to be a partner in prevention of the spread of infectious disease at the camp, including i) strictly adhering to arrival, departure, and visitation guidelines (including the possibility of a no-visitation policy); ii) participating in all testing and prophylaxis required by the camp, iii) providing documentation and test results as required by the camp; and iv) meeting deadlines and timelines set by the camp. The family agrees to not hold the camp, its staff, owners, or directors responsible or liable in the case of the spread of infectious disease during or following a camp session.

(Required)

I understand and agree

Campers' Pharmacy Instructions

To register with Campers' Pharmacy:

1. Head to www.camperspharmacy.com
2. Click New User Register
3. Click Parent
4. Fill out your Name, Email, and Phone Number
5. Agree to all Terms and Conditions
6. You will be asked to Activate your Account via E-Mail
7. Once Activated, you will log in and be taken to the Campers' Pharmacy Portal
8. Choose Camp Ballibay, and which session your child will be attending. Then click the green "Register for Camp" button.
9. Once you've selected Camp Ballibay and your camper's session information, Click "Add New Camper Information."
10. Input all of your Camper's Information & click Next.
11. Click the box next to Primary Insurance details and/or Secondary Insurance Details to input your insurance information. Once completed, click Next.
12. Click the white box next to Primary Physician Details and/or Secondary Physician Details to enter your camper's physician details. Once completed, click Next.
13. Input your payment information and click Complete Registration.

Once you are registered:

1. Print out Physician Letter and OTC Medication Physician Authorization Form to bring to your Physician for signature
2. Submit Prescriptions / Authorizations to Campers' Pharmacy
 - Rx for Prescription Meds: These are best to be sent directly from the Physician to Campers' Pharmacy - see Physician Instruction Letter attached. If parent submits the Rx, an original is required. Copies or faxes are not accepted from a parent.
 - OTC Meds: The completed and physician signed OTC Physician Authorization Form needs to be sent via email to info@campersPharmacy.com (include Camp Ballibay and Camper Name in the subject line and copy office@ballibayCamps.com).
3. Campers' Pharmacy uploads all medication information onto the portal as submitted.
4. Parent confirms all medication information is accurate on the Campers' Pharmacy portal. Information should be available for review on the portal 48 hours after submission. Place close attention to dosage, timing, formulation, refills, etc. Any discrepancies should immediately be sent in writing via email to info@campersPharmacy.com (include Camp Ballibay and Camper Name in the subject line and copy office@ballibayCamps.com).
5. Medication is delivered to camp.

Other Important Information:

- You must register with Campers' Pharmacy **30 days** prior to the start of your child's first day of camp. Registering 1-14 days late requires a \$25 late fee. Registering 15-29 days late requires a \$50 late fee. Registering any later than that requires a \$50 late fee plus shipping charges.
- Campers' Pharmacy accepts most major insurance plans, so your copay should remain the same for prescriptions. You can check the amounts of copays before the medications are filled in the online portal.
- OTC Medications, Vitamins, Supplements, Lactaid, Melatonin: In some cases, OTC pricing may be higher than big box stores due to the unique nature of Campers' Pharmacy packaging service. Pricing will be visible online at the portal after processing.
- It is your responsibility to check the Campers' Pharmacy portal to ensure all documentation has been received and that it is correct. Medication will be processed as it is written in the portal. Information should be available for review on the portal 48 hours after submission. It is important to provide all prescriptions and authorizations before the due date. If prescriptions and/or authorizations are received late, additional fees will be charged.
- For questions: Email is preferred (so there is a record of the communication). Email Campers' Pharmacy at info@campersPharmacy.com. In the subject line, indicate Camp Ballibay – Camper Name. Please copy office@ballibayCamps.com

Grapefruit Health PCR Covid-19 Test Instructions

We require a PCR Covid test taken as close as possible to 48 hours before the opening day of your camper's session. Campers must show a negative result on this test to arrive at camp. If you live in the continental US, our Covid testing partner, Grapefruit Health, will send a test to your home and provide the results directly to us; you can provide insurance information or opt to pay for the test, see below.

Who is Grapefruit?

Grapefruit Health is a group of physicians, researchers, and scientists who work with camps to mitigate COVID risk. Grapefruit team members have overseen more than one million COVID tests since the beginning of the pandemic, and can bring these tests to you with no out-of-pocket cost.

How does this work?

If you live in the continental US and wish to receive a home test from Grapefruit (to be administered as close as possible to 48 hours before your camper's session's opening day) *you do not need to do anything at this moment*. We will share your contact information with Grapefruit, and they will email you in the coming weeks to sign up for pre-arrival testing and collect your insurance information. The camp will share your contact information with Grapefruit.

If you wish to make other arrangements for your pre-arrival Covid test, please let us know, and we will not share your information with Grapefruit. Please let us know your plan for testing in this case.

After signing up through Grapefruit's online portal and receiving a test kit in the mail, you'll schedule a brief telemedicine visit with one of Grapefruit's board-certified doctors. They will walk you through everything and get your test kit and sample processed in time for camp arrival.

If you do not provide insurance information, or otherwise prefer to pay for the test out-of-pocket, you will still receive the test, and can still submit it to Grapefruit and receive a result, but will not have telemedicine guidance. The cost will be added to your camp account (approximately \$125).

If you do not receive an email from Grapefruit within three weeks, you can contact them at: info@grapefruithealth.net or 732-284-9495.

Any updates to this information will be posted here: <http://grapefruit.ballibay.com/>
