

A Warm Welcome from Camp Ballibay

Welcome to Ballibay! We are delighted to be working with you this summer.

It's been a truly maddening year, and we hope you are excited at the thought of having some real social interaction in a safe, creative, and caring environment. We have an incredible group of kids and staff joining us this summer.

There are several more steps than usual in preparing for camp this summer, and our Staff Arrival Manual is filled with a lot of detail this year, so please review it carefully.

Among the changes are, of course, our Covid protocols, including a PCR test taken before arrival. We are fortunate to be partnered with Grapefruit Health, who will send a PCR Covid test to your home and provide telehealth support at no cost to you (if you are in the continental US). You can opt-out of the Grapefruit program if you need to, or choose to for any reason. Contact us to let us know your alternative PCR testing arrangements.

These and many other topics are addressed in detail in the Staff Arrival Manual, included in this packet and downloadable from our website: <https://ballibay.family/staff-downloads>

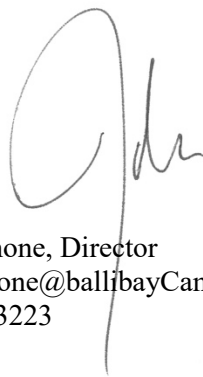

Please also re-visit the Pre-Arrival Manual and Agreement that you signed along with your contract. Review the information there and check to see if there are any action items you have not yet completed, such as the Staff Directory, tax forms, etc...

In this packet please find:

- The 2021 Staff Arrival Manual
- A suggested Clothing/Packing List
- A required Staff Medical Form
- A required Infectious Disease Waiver and Agreement
- A Map of Campus

See you this Summer!

But don't hesitate to call or email with any questions, comments, or concerns!
